British Opinion of the Papal Council-Power of the Pope and Attitude of the Prelates. LONDON, NOV. 4, 1869.

The correspondent of the London Post writes as lows from Rome concerning the expected action

follows from Rome concerning the expected action of the council:—

The dogmatic definition of the Assumption of the Virgin Mary will encounter no obstacle. The Pope earnestly desires the consolidation of this dogma. The erection into a dogma of the necessity of the temporal power is not considered possible by its most ardent champions. The foundation and preservation of this power do not afford the elements of a dogma, and belief in its necessity is not even proxima Rdes, but only of high importance. Probably the protests of 1862 and 1867 will be received. It is suggested that the necessity will be received. It is suggested that the necessity will be received. It is suggested that the necessity will be received. It is suggested that the necessity will be advise that terms be made with the kingdom of Italy, so that all appointments, even the Popedom, may be conferred without the destruction of nationality; but such a change of policy, although destrable, is improbable at present, and must be left to time and the force of events, give Council does not have the initiative with respect to the syllabus. It would be abound to think that the syllabus will be asked to jasnotion it by open and unanimous achiesion, and oxyninh such portions as are obscurely worded or erroneously interpreted. Beyond these points the Council will be only occupied with questions of internal discipline, such as reform missions, the rounou of schismatics and heretics, with the Church modifications of religious orders, the amelioration of instructions to the clergy and the adaptation of the judicial power of bishops to the condition of society. It is important to observe that the linitiative in everything belongs to the Pope alone, As the Roman Catholic hierarchy is strongly and judiciously constituted it is improbable that any serious opposition will be manifested.

Proposed Modification of the Rubbinical Marriage Laws—An Acknowledgment of the Equality of Women with Men-Di-vorces by the Church to be Abelished.

PHILADELPHIA, Nov. 4, 1869.
The Convention has received an addition in the arrivat of Rev. Isaac M. Wise, of Cincinnati, and pr. M. Schlissenger, of Albany. The session was opened at ten o'clock A. M. All the members seemed to be animated by the sincere desire to make the best use of time, to make as few speeches as possible and to advance the cause of reform by decided improvements. The reforms in Jewish marital laws were considered to a morning and again the propositions of the Rev. L. Einnorn taken as a basis. The preamble starts with the premise that although Judaism always recognized the sanctity of matri-monial union, yet in its legal determinations it is, therefore, expedient that reformed Judaiam Stee such reforms as to bring the higher position which woman occupies in modern society in accord with the religious institutions. The first resolution passed reads as follows:—

In the marriage ceremony the bride shall no longer occupy passive position, but a mutual avowat shall be made by the groom as well as by the bride, by the pronunciation of the same formula and by an exchange of rings.

Some members opposed the innovation of introducing the exchange of rings. Since marriage was but a strictly civil act, the ring was a mere symbol, and therefore useless. The mover, however, contended that though the words spoken completed legally the bond of wedlock, yet the ring, white used as a symbol, snould be tendered by the bride to her future husband as well as by the latter to the former, it is a demonstration that Judaism recognizes the full equality of woman with man as a moral being, that the avowal is mutual and that the duties of a man towards her husband. The resolution was finally adopted.

wife towards her husband. The resolution was finally adopted.

The second resolution gave rise to an animated and even excited debate, and was finally passed in the following form:—

The marriage formula shall be, "be wedded unto me, as busband, respectively as wife, according to the law of God."

Propositions three, four and five were adopted without debate and read as follows:— Without aboate and read as ioniows:—

S. The benefiction until now in use is to be replaced by one which fully expresses the moral cirvation of the married state and emphasizes the biblical idea of the fusion of man and woman into one personality and the Divine prohibition of liegal interceurse.

4. Polygamy is in direct opposition to the idea of marriage. The marriage of a man with a second wife can be as ifflied valid therefore and as little claim the sanction of ecclesiastical authorities as the marriage of a woman already married with another man is to be considered null and void.

The fourth resolution must in so far be explained that heretofore a woman who was married to a man who is proved to have a wife living had to be divorced by the rabbinical authorities before she could marry again.

5. The priestly marriage laws, which presup higher sancity of the Aaronites, have lost, since the tion of the Temple and the extinction of the sacri-bable, all validity, and are no longer to be respected. The next question was the validity of divorce by the civil authorities and the position of religion in regard to it. The following is the first resolution passed:—

Virginia led the field up to the half-mile pols, in 1:22, and continued it until entering the nomestretch, whom Willie collared her, and between them the race was exciting. The stand was reached, it was thought by compelent outsiders, Virginia first, neck and shoulders in front of Willie, but the judges decided that the latter won the heat, although the crossed the score on a run, and that was not his first manneuvre of the kind in the heat. Fisher firl was third and No Name and Harry fourth and fifth. The latter were now ruled out, not having won a heat in Eve.—It was so dark at this time the horses could not be seen ten feet from the stand. Patrol judges were sent out, and when they returned the judges decided that Willie had won the heat and race. Virginia passed in second, three lengths in front of Fisher Girl. Candles had been obtained to note the time of the mile. The quarters, of course, could not be adjudged. Time, 2:47. The following less summants.

After jogging them around a mile and three-quarters, he let them out somewhat the last quarter of the second mile, when they clipped it to the stand in thirty-six, and a half seconds. Their action and appearance won many praises from the delighted speciators. They went to an ordinary road wagon, and it must be remembered Simson weighs 228 pounds.

TROTTING AT THE FASHION COURSE.

A aweenstakes of \$300 came off yesterday afternoon at the Fashion Course between John Doty's bay mare Topsy and John Murphy's chestnut mare Louise. Old Put was also entered, but failed to put in an appearance. The race was mile heats, best three in five, hin harness. Topsy won the race in three straight heats. Louise was the favorite prerious to the start at \$100 to \$30. The day was fine and the track in good condition, but the attendance was not so great as the fine weather and good trot ting should have made it. The race was a good one throughout, was well contested and gave general satisfaction. The following are the details:—

First Heat.—Topsy won the pole, and, having the best of the send-off, was two lengths ahead around the turn. This advantage she carried to the quarter pole in thirty-nine seconds. On the back-stretch Louise shut up a portion of the daylight, but at the naif-mile pole Topsy was still a length and a half in front. Time, 1:16. Going along the Finshing broke up and Louise took a lead of two lengths, which she carried into the homestretch. Topsy, when she got into straight work, overhauled Lond then broke up, and when they recovered Topsy had the lead, which she maintained to the end, winning the heat by half a length in 2:85. eight. Topsy again had the best of the send-off,

Louise closed again, and at the three-quarter pole she was at Topsy's flanks. Topsy trotted ste adily home and won the heat by a length in 2:24%.

Third Heat.—Louise had the best of the start, but the leat, was soon taken from her, and Topay led around the turn one length. At the quarter pole, which was passed in thirty-nine seconds, Topay led a length and a half. Going down the backstrate Louise closed up to Topay's wheel, but 15t the haif-mile pole Topay was half a length ahead, in 1:10%. Going around the lower turn Louise closed gradually, and at the three-quarter pole Topay was only half a length in front. The marge sufered the nonestration in this way, and

In the sweepstakes trotted on Wednesday Lads Hamilton was third, and her entrance money was returned to her. It was announced from the stand that Western New York was third, but this decision was afterwards recalled and Lady Hamilton awarded the place she was entitled to. She beat Western New York a length in the heat. The time of the heat was 2:32½.

Extraordinary Performances of Mr. Bonney

Between the second and third heats of the trot yesterday at the Fashion Course Mr. Bonner brought his bay colt Jo. Elliott on the course, and after jogging him around the track twice he speeded him a half mile to his road wagon. The cost trotted from the stand to the quarter pole around the turn in thirty-seven seconds. Along the backstretch, in straight going, he trotted the second quarter in thirty-four seconds and a half, making the half mile in one minute and cleven seconds and a half. This performance took place in presence of the assemtion. But this was not all. After the growd had don. But this was not all. After the crowd had dispersed Mr. Bonner concluded to give the solt a trial of a mile in harness. In pursuance of this determination a solky was procured, and John Murphy was selected to drive the colt. Three gontiemen—Messrs. Humphreys, W. Simmons and Wm. Borst—went into the stand as timers, and the colt was tarted. He trouted the mile in 2:25%. It being very apparent that he had not been put to his utmost speed another trial was suggested, after a suitable intermission, which was agreed to. The colt was then again started, and completed the mile in 2:1914. The first quarter was trotted in thirty-six seconds, the half mile in 1:10M, the three-quarters in 1:45, and the mile, as above stated, in 2:1914. For so young a horse this is the most extra-ordinary performance on record, as he is but five years old. Jo. Elliott was formerly known as the Bogart Colt, and was sired by Major Winfield. It is confidently predicted that as time rois round this colt may yet ecripse the brilliant record of text er himself. It is to be regretted that this notable performance did not take place before the crowd had dispersed, as it would have afforded them invitate pleasure.

FUNNY JUDICIAL DECISION.—A negro Dogberry of Mississippi has made a funny decision. The Vicksburg Heraid tells the story:—Two negroes, near Rolling Fork, in Issaquena county, had a difficulty, and it resulted in their attendance before a negro magistrate of the neighborhood. After a hearing the magistrate decided that both men were in fault and that each should pay a fine of twenty-five dollars and costs, making forty-eight dollars each. But both were unable to pay. The embarrassed aquire finally hit upon a blan to get even with them. He put both to work upon his forty acre cotton patch, and they picked 4,800 pounds each to square the bill.
